

SELENIUM ARCHITECTURE

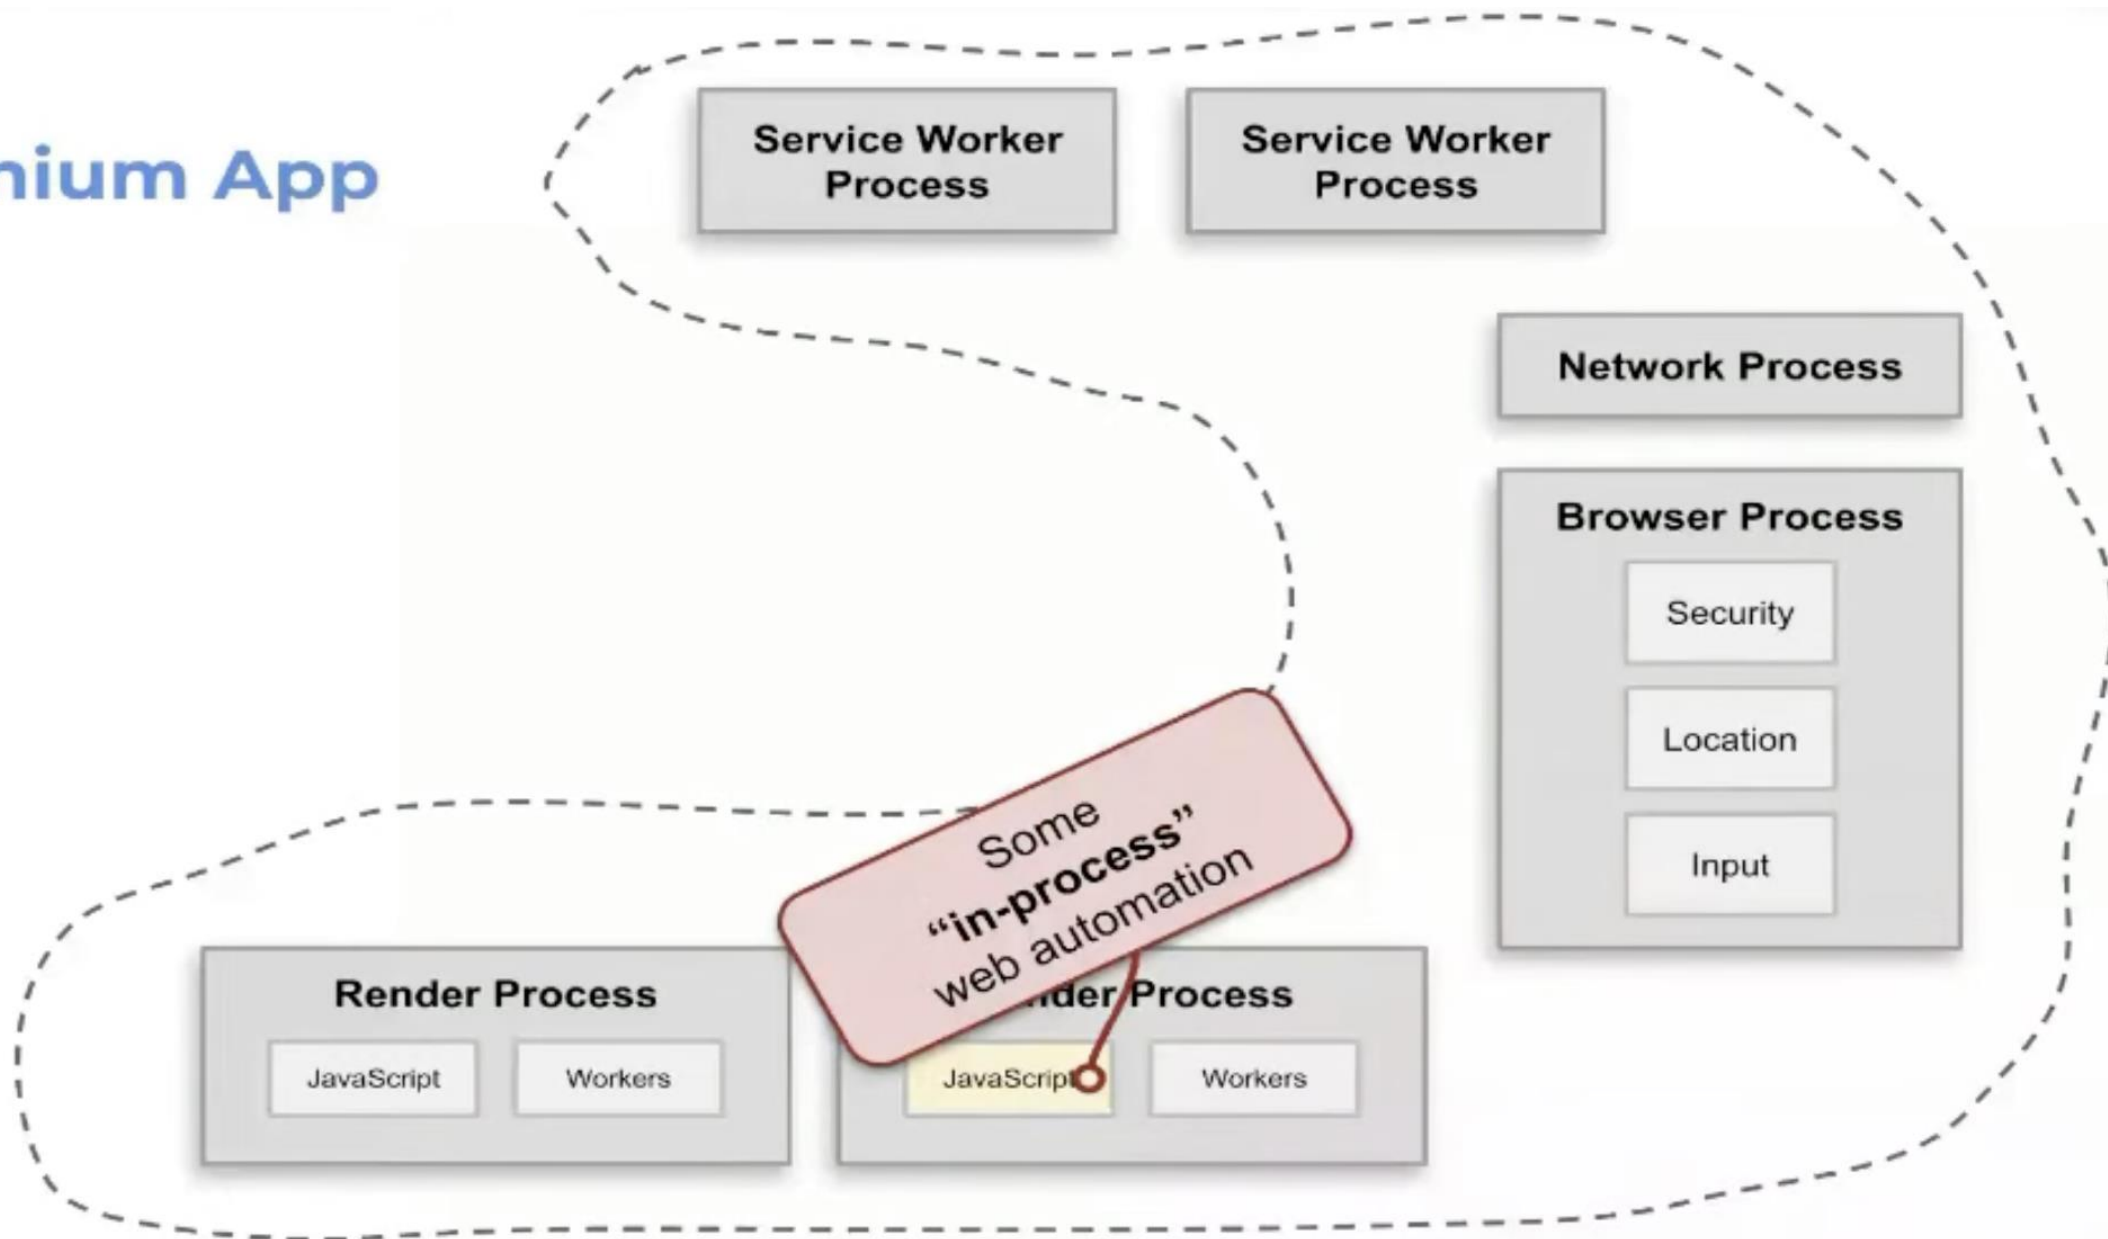

CHROME VS CHROMIUM

	 Chrome	 Chromium
Licensing	Proprietary Owned by Google. You can download and use Chrome for free, but you can't see or change the code or use it for another project.	Open Source You can see the code and do what you want with it, including building your own browser out of it and (in some cases) contributing to the codebase.
Security	Automatically Updated Security updates and new features are propagated through Chrome all the time, and the whole browser's code is updated regularly.	No Support No automatic updates or new features, nor automatic security updates.
